On **12, 13 and 14 September 2018** the conference of **ALARYS** (Asociación Ibero Americana de Administradores de Riesgos y Seguros) and **APOGERIS** (Associação Portuguesa de Gestão de Riscos e Seguros) will be held in Porto, Portugal.

For the first time in its history, ALARYS has chosen Europe to hold its annual conference which will bring together over 150 participants, among whom the chief risk officers and risk managers of leading companies in Latin America, Portugal, Spain and Italy; the presidents of European risk management associations; representatives of insurance companies and brokers and chief executives from the financial world.
